I will contact the Science Inventory people right away - I accessed the system last week and had no problems, so it is a recent issue

Also, I have prepared a draft FRN and submitted the funding documents, but I will need to know an ending date for the extension of the public comment period before I can move forward.

**Subject:** Sorting out the peer review info on the Pavillion website

I was looking at the website this morning to consider where we should post the 4 public comments on the draft charge, and found a number of issues of concern that we need to clear up. First, both the link to the peer review plan and the draft charge are not valid- when you click on them they say document unavailable. Second, the main page says that comments will be accepted on the peer review questions until Oct 16, but when you click on that link it says comment period closed. We need ORD to help us fix the links to the science plan and the draft charge, and we need to put in the correct date that the comment period on the draft charge closed (I don't know what that is). We need to get these things straightened out so that we can post the 4 public comments that Encana has been asking Rebecca for. We need to fix this asap.
